EDUCATION

Bachelor of Technology: Computer Science

Nov 2022 – Apr 2026

SR University

GPA: 7.2/10.0

Coursework: Computer Architecture, Machine Learning, Data Structures, Design and Analysis of Algorithms, Object Oriented Programming, Operating System, Network Security, Data Mining, C, Python, Java

INTERNSHIP

Software Developer Intern

June 2024 – July 2024

Vegaahi IT Pvt. Ltd.

Designed and developed a personal portfolio website to showcase projects, skills, and experience using modern web technologies. Created the UI/UX design for an e-commerce website, applying responsive design principles and user-centric layouts.

Participated in real-time web development tasks, improving hands-on skills with both frontend and backend technologies. Strengthened communication, collaboration, and problem-solving skills by working in a professional and team-based environment.

PROJECTS

Diwali Sales Analysis

SQL, Python

Description: Analyzed Diwali sales data using SQL and Python to identify meaningful trends, customer preferences, and high-performing products, generating actionable insights that contributed to a 15% increase in festival-related revenue.

Roles and Responsibilities:

1. Analyzed Diwali sales data using SQL and Python.
2. Identified customer preferences and high-performing products.
3. Generated actionable insights from sales data.

Music Store Analysis

PostgreSQL, Admin4

Description: Conducted a data-driven analysis of a music store database to identify sales trends and inventory optimization opportunities. Executed advanced SQL queries in PostgreSQL using Admin4 for database management.

Roles and Responsibilities:

1. Conducted data-driven analysis of music store data.
2. Executed advanced SQL queries using PostgreSQL.
3. Used Admin4 for database management.
4. Identified sales trends and inventory optimization opportunities.

Customer Segmentation Analysis

Python, ML

Description: Analyzed customer data to identify distinct groups based on purchasing behavior and demographics, enabling personalized marketing strategies and improved customer engagement.

Roles and Responsibilities:

1. Analyzed customer data using Python and Machine Learning.
2. Identified customer segments based on purchasing behavior and demographics.
3. Supported personalized marketing strategies and improved customer engagement.
