Education

SR University, Bachelor of Technology in Computer Science

Nov 2022 – Apr 2026

- GPA: 7.2/10.0
- **Coursework:** Computer Architecture, Machine Learning, Data Structures, Design and Analysis of Algorithms, Object Oriented Programming, Operating System, Network Security, Data Mining, C, Python, Java

Experience

Intern, Vegaahi it pvt ltd [\(Certificate\)](#)

June 2024 – July 2024

- I Designed and developed my personal portfolio website to showcase my projects, skills, and experience using modern web technologies..
- Created the UI/UX design for an e-commerce website, applying responsive design principles and user-centric layouts.
- Participated in real-time web development tasks, improving my hands-on skills with both frontend and backend tools.
- Strengthened my communication, collaboration, and problem-solving skills by working in a professional and team-based environment.

Technical Skills

Languages: C, Python, Java

Tools & Frameworks: Django, Visual Studio , Figma , Framer ,Postgre

Web Programming: HTML, CSS, JavaScript,ReactJs,NodeJS.

DataBases: SQL, MYSQL, PLSQL, MongoDB, Microsoft SQL Server

Domain Knowledge: Amazon Web Services,Machine Learning, Data Analytics, Full Stack Development

Projects

Diwali Sales Analysis | **SQL , Python**

[\(GitHub\)](#)

- Exploratory Data Analysis (EDA) of Diwali sales data using Python – uncovering customer behavior, sales trends, and insights to boost business strategy.

Music Store Analysis | **PostgreSQL,Admin4**

[\(GitHub\)](#)

- This project analyzes a music store database to extract key insights about customer demographics, sales trends, most popular artists and genres, and purchasing patterns. SQL is used for querying the relational database, and Python is leveraged for visualization and deeper analysis. The goal is to support data-driven decisions for inventory management and targeted marketing.

Customer Segmentation Analysis | **PYTHON, ML**

[\(GitHub\)](#)

- Analyzed customer data to identify distinct groups based on purchasing behavior and demographics, enabling personalized marketing strategies and improved customer engagement for business growth and profitability.

Achievements

- Achieved the 11th rank in the 12 hour hackathon held on September 2023,completed in applying advanced coding techniques to tackle complex challenges. [\(Certificate\)](#).

Certifications

Cisco: Data Analytics Essentials

[\(Verify\)](#)

Oct 2023

cisco: Introduction to Networks

[\(Verify\)](#)

Nov 2023

Coursera: Introduction to MangoDB

[\(Verify\)](#)

Jan 2024

AWS Academy Cloud Foundations.
